

East Birmingham Network Academy

Dear Parent/Carer,

31st March 2020

Re: Academic Work and Safe and Well checks during School Closure

I hope that this letter finds you and your families in good health and that you are coping with the current lockdown situation in the country.

I am writing to update you regarding the ongoing provision of school work for your child. In addition to the work packs distributed earlier this month we will be sending further work out for your child later this week. After the Easter break, and depending on the length of the school closure, we will continue to send out work and web links to educational resources on a regular basis. Additionally we have placed a number of links to specific websites and activities on our website. The link for this is <http://ebnacademy2.co.uk/links/>

If at any time your child requires assistance with work or you require further subject specific work then you can email the class teachers using the emails in the table below. Please do use this service as the staff are on hand to support and would really like to hear from you and your child. If you do get in contact over email staff will endeavor to respond within 24 hours.

In addition to the provision of work we will also be in phone contact with you on a weekly basis to ensure all students are safe and well. If you have any concerns or there is something you would like support with please let the member of staff who calls you know and we will assist in any way we can.

Finally, if you are a key worker or your child is classed as vulnerable under the government guidelines and you need provision then please get in contact with myself on the phone number below. When we have further updates on the closure situation we will ensure you are informed as early as possible.

Many thanks for your support and understanding at this difficult time and please stay safe.

Yours sincerely

Mr Matthew Baldwin
Executive Head Teacher
